The preceding are foods whose ingredients have been reviewed by our staff for their nutritive value. They are free of the top four allergens found in dry dog food: Corn, Wheat, Dairy Products, and Soy Products. All have high-quality proteins, with no “By-Products” or “Digest.” Only the formulas listed for each brand name are recommended—for example, although we recommend some formulas by the brand “TimberWolf Organics,” we do not recommend their “Southwest Chicken & Herb” or “Wild & Natural Canid” formulas because they contain dairy products. Although this list is based on a review of the ingredients in each food, manufacturers have the right to change formulas at will. Therefore, it is important that you check the label before buying any food to ensure its high quality.
